Fires and Other Dangers of E-Cigarettes [from Americans for Nonsmokers' Rights](#)

Here are some samples collected over the past few years showing the wide range of hazards that electronic cigarettes and vaping devices can pose to users and those around them - from fires and explosions to poisoning and secondhand emissions from a wide range of substances. These unregulated products should not be used in smokefree spaces - including airplanes - where others are exposed to the

secondhand emissions and other risks. [Read More](#)
