

School SBIRT Training

(Screening, Brief Intervention, and Referral to Treatment)
A Training Opportunity for Middle and High School Student Services Staff

What is SBIRT?

SBIRT offers an efficient, evidence-based, and comprehensive service to address selected behavioral health concerns among adolescents. The service begins with administering a standardized Screening instrument. For students who show moderate or high risk results, a Brief Intervention (BI) is conducted. The BI is delivered with motivational interviewing and is protocol-guided. For those students who show high risk concerns and who do not respond to the BI, a Referral to Treatment may be initiated.

Why SBIRT in Schools?

- Evidence-based for addressing student alcohol/drug involvement and evidence-informed for addressing a range of other behavioral concerns, including attendance, classroom behavior, and mental health
- Student-centered and strength-based
- Teens rate the service with high levels of satisfaction
- Provides a Tier II and Tier III practice with PBIS
- Response-to-Intervention can be ascertained by using baseline and follow-up screening results
