The Trauma-Informed School is an all-inclusive guide designed to give school personnel of any level (elementary, middle or high), step-by-step instructions on how to create a trauma-informed school. This guide was developed from the vast experience of a nationally recognized retired school principal and school consultant (Jim Sporleder) and a nationally recognized trauma expert (Heather T. Forbes, LCSW).

Each week participants will be expected to complete the assigned reading, respond to one or more prompts posted by the facilitator on the group's discussion board, and engage with co-participants in discussing implementation strategies.

Topics covered include: toxic stress and its relationship to learning, environmental, relationship, and classroom strategies.
